

Grade 6 · Mathematics

Probability Practice

Name: _____

Focus: Probability

Date: _____

1. Spinner

A spinner has 6 equal sections: 2 red, 2 blue, 1 green, 1 yellow.

- a) List all possible outcomes: _____
- b) What is the probability of landing on red? _____
- c) What is the probability of landing on blue? _____
- d) What is the probability of landing on green? _____
- e) What is the probability of landing on a primary colour (red, blue, yellow)? _____
- f) What is the probability of landing on a colour that appears only once? _____

2. Roll a Fair Six-Sided Die

- a) List all possible outcomes: _____
- b) What is the probability of rolling a 5? _____
- c) What is the probability of rolling a 1 or 6? _____
- d) What is the probability of rolling an even number? _____
- e) What is the probability of rolling a number less than 4? _____
- f) What is the probability of rolling a number greater than 6? _____

3. Gumball Machine

A bag contains 20 gumballs: 10 green, 6 blue, 3 yellow, 1 red.

- a) What is the probability of choosing a green gumball? _____
- b) What is the probability of choosing a yellow gumball? _____
- c) What is the probability of choosing a red gumball? _____
- d) What is the probability of choosing a colour that is not blue? _____
- e) What is the probability of choosing the most common colour? _____

4. School Cafeteria Combos

Most students choose Combo 2. About the same number choose Combo 1 or Combo 4.
Very few choose Combo 3.

Circle the best probability:

- a) Combo 2: $\frac{4}{5}$ $\frac{1}{4}$ $\frac{1}{2}$
- b) Combo 3: $\frac{1}{20}$ $\frac{3}{4}$ 1
- c) Combo 1: $\frac{1}{3}$ $\frac{4}{5}$ 1

5. Weather Report

Last April: Most days were rainy. Some were cloudy. Very few were sunny.

Circle the best probability:

a) Sunny day: $\frac{1}{20}$ $\frac{1}{2}$ $\frac{3}{4}$

b) Rainy day: $\frac{3}{4}$ $\frac{1}{10}$ 0

c) Cloudy day: $\frac{1}{4}$ 1 $\frac{4}{5}$

6. Bag of Marbles

A bag contains 5 red, 5 blue, and 5 green marbles.

a) What is the probability of choosing a red marble? _____

b) What is the probability of choosing a marble that is not blue? _____

c) What is the probability of choosing any one colour? _____

7. Candy Jar

A jar contains 8 candies: 3 orange, 3 purple, 2 green.

- a) What is the probability of choosing a purple candy? _____
- b) What is the probability of choosing a green candy? _____
- c) What is the probability of not choosing orange? _____

8. True or False - Write T or F

- a) The probability of rolling a 7 on a regular die is $\frac{1}{6}$. _____
- b) The probability of choosing a green marble when none are in the bag is 0. _____
- c) The probability of getting heads on a fair coin is $\frac{1}{2}$. _____
- d) The probability of something impossible happening is 1. _____
