

□ KRIANA WORKSHEETS – ANSWER KEY

Mini Quiz – Ecosystems Basics (Answer Key)

Focus: Biotic & Abiotic · Niches · Food Webs

1. What is the difference between biotic and abiotic factors?
2. Give one example of a biotic factor and one abiotic factor.
3. What is a niche?
4. Which organism starts most food chains and why?
5. Why are food webs more realistic than food chains?

Tutoring Tip:

Use real-life examples (forest, pond, ocean) to help students visualize each concept.
