Reading & Thinking Skills – Focus and Multitasking

Focus: Main Idea · Summary Writing · Critical Thinking · Sentence Structure

Reading Passage:

Many students multitask while doing homework, switching between messages, videos, and assignments. Although this feels productive, research shows multitasking can reduce focus and increase the time needed to finish work. Developing the habit of concentrating on one task at a time helps students work more efficiently.

1. What is the main idea of the passage?
2. Why does multitasking reduce productivity?
3. Write a one-sentence summary of the passage.
4. Identify the sentence type (Simple, Compound, Complex): Students often believe multitasking helps them work faster, but it actually slows them down.
5. Identify the sentence type (Simple, Compound, Complex): Focusing on one task at a time increases efficiency.
6. Identify the sentence type (Simple, Compound, Complex): Because they check their phones often, many students lose concentration quickly.

Tutoring Tip:

Encourage students to justify their thinking. Ask them WHY they chose a sentence type or summary structure — this builds deeper understanding.

Reading & Thinking Skills – Digital Tone & Communication

Focus: Reading · Critical Thinking · Inference · Sentence Structure

Reading Passage:

Technology has changed how students communicate. Messages that once required a phone call or an in-person conversation can now be sent instantly through texts or social platforms. While this can make communication easier, it also creates challenges. Tone can be misunderstood, messages can be taken out of context, and quick replies sometimes replace thoughtful responses. Learning to communicate clearly and responsibly is becoming an essential skill for success.

1. What is the main problem described in the passage?
2. Why can tone be misunderstood in digital communication?
3. What is one challenge caused by quick replies?
4. What skill is becoming essential for students?
5. Identify the sentence type: Because messages lack body language, misunderstanding happens easily.
6. Identify the sentence type: Students send messages quickly, but not all of them think carefully before replying.
7. Identify the sentence type: Clear communication builds trust.

Tutoring Tip:

Ask students to explain what clues they used to identify tone or misunderstanding.

Reading & Thinking Skills – Organization & Time Management

Focus: Main Idea · Supporting Details · Summary · Sentence Structure

Reading Passage:

As technology becomes more advanced, students are expected to manage more information than ever before. This constant flow of notifications, assignments, online discussions, and social updates can feel overwhelming. To handle this effectively, students must develop strong organization habits. This includes breaking tasks into manageable steps, setting priorities, and using tools such as calendars or planners. When students manage their time well, they feel less stressed and perform better academically.

1. What is the main idea of the passage?
2. List two challenges caused by the constant flow of information.
3. What are two strategies that help students stay organized?
4. Why does good time management reduce stress?
5. Write a one-sentence summary of the passage.
6. Identify the sentence type: When students plan ahead, they complete work more efficiently.
7. Identify the sentence type: Many students feel overwhelmed, but strong routines can help them stay focused.

Tutoring Tip:

Model a step-by-step breakdown of a large task to help students understand task management.

Reading & Thinking Skills – Distraction & Self-Regulation

Focus: Inference · Cause & Effect · Summary · Sentence Structure

Reading Passage:

Many students find it difficult to stay focused for long periods because modern technology provides constant entertainment. Every notification competes for attention, making it tempting to stop working even for a moment. These small breaks can add up, stretching assignments that should take 20 minutes into an hour or more. Students who learn self-regulation strategies, such as turning off notifications or working in silent spaces, often finish their work faster and with better quality.

1. What is the main challenge described in the passage?
2. Why do small distractions add up to longer work times?
3. What are two self-regulation strategies mentioned?
4. Write a one-sentence summary of the passage.
5. Identify the sentence type: Students struggle to stay focused because they are surrounded by constant distractions.
6. Identify the sentence type: Some students turn off notifications, but others find that difficult.
7. Identify the sentence type: Turning off your phone can make focusing much easier.

Tutoring Tip:

Discuss real-life habits the student can use to improve focus during homework time.
